Council by the Registrar General, on a and placed on a proper financial basis petition from the Po Lewng Kuk, con- is one that does not involve any great tains a great deal of very interesting expenditure on the part of the Coverninformation and describes with great ment, and we should hardly think it clearness and exhaustiveness the actual likely that the outlay would be grudged. 3 p.m. - Meeting of Shareholders of The position and work of the Society. As considering the object for which it is

I must deplorable effects may be greatly I fully before the Government.

minimised by such work as the Po Loung Kuh engages in, is beyond all question. The petition praying the Government to make a grant to eaable the Society to meet its expenditure and to place the institution on a firm and lasting basis is therefore deserving of every consideration. The affairs of the Po Leung Kuk are managed by committee of Chinese gentlemen of well-known respectability. Its method of work is briefly stated in one of the series of rules sanctioned by the Government in 1882 The Society will endeavour by correspondence and inquiry to essist in the detection and bringing to justice of persons guilty of kidnapping and kindled offences. The Society will also endeaveur by the establishment of a Home in Hongkong to provide temporary accommodation for destitute women and children who may be resound from litegal custody. The Society will also endeavour to restore rescued women and children to their relatives, and in case of those who are friendless, to make such provision as may be proper for their welfare. That the Po Leung Kuh has rendered much practical assistance to the Government by its operations has already been." freely acknowledged, and the toquest made in the petition now before the Government is practically the result of the fact that this philanthropic work of rescue has increased so much ; that the Society is unable to overtake it Case. Per Bot. with the means at its disposal. The figures in the return of the cases dealt

years show conclusively that the Society is both energetic and successful in its work. During the period mentioned 2,412 males and females were restored to their relatives. 218 women were married and 46 children were adopted, Capanle (Old Bottled) ..... 18 1.50 the total number of persons dealt with being 2.851. One specially noteworthy fact which the figures show is that in consequence of the increased powers given to the Registrar General under the Women and Girls Protection Ordinance, which came into force last 1.00 year, there has been a great increase in the number of cases dealt with by the Society, the total from 12th July 1891 less than six months, being 506. The White Seal Capsule..... 12 1.10 committee, Mr Stewart Lockhart states, 'although business men whose time is much occupied by their own affeirs. have contrived to devote un amount of Bottled) ...... 14 1.25 time and energy to the work of the Per Case. Per Case. Society which has increased its efficiency and has been of the greatest assistance to this (the Registrar General's) Office.' On these facts a very good case 5 00 is undoubtedly made out for govern-7 50 ment assistance; and when the committee merely asks for such aid as may onable the Society to have a suitable place for housing and maintaining those who are entrusted to its care, we can hardly conceive it possible that the Covernment will refuse the request. Up to the present time the only accommods. tion at the disposal of the Po Leung Kult for the purpose mentioned has been a mere loft at the Tung Wn Hospital, the use of which was granted by the management of that institution. We do not wonder that this has long been considered insufficient.

Apart altogether from the question of

space, this arrangement is obviously ob-

negotiations have taken piace between

the Government and the Society with

regard to the acquisition of a site for a

Home, but they have, so far, resulted in

nothing owing to difficulties of one

point which the Committee now

aubmit to the Government, and which

pertainly seems a very reasonable one,

is that a portion of the lot given by the

Government to the Tung Wa, which is

marked ont for the site of the Po Leung

Kuk. As regards the question of ways

and means, the Women and Girls Pro-

tection Ordinates empowers the Goverument to provide a suitable building or buildings for the purposes of temporarily housing and maintaining women and girls detained under the provisions of the Ordinance. There ought therefore to be no difficulty on that soore. Mr Stewart Lockbart points out that in Singapore and other places in the Straits Settlements, where Homes have been established under the Women and Girls Protection Ordinance. the cost of the buildings and upkeep are defrayed out of public moneys, no subscription like that raised emong the Chinese here being collected. The Chinese community of Hongkong, it must be said to their credit, have shown every willing ness to support the Po Leung Kuk as far as it is in their power to do so. An appeal for aid made in the early part of last year met with what must be review of the commercial depression which prevailed, a sum smounting to \$30,000 having been subscribed. The interest on this sum, however, Mr Stewart Lookhart points out, will not suffice for the annual expenses of the Society, which are estimated at from \$5000 to \$6000. The suggestion in the report as to how the institution THE report submitted to the Legislative may be provided with a saitable Home

to the constitution of this Chinese orga- sought. We quite agree with the Renisation for the protection of women gistrar General that if the work which and children, and as to its modus ope- the Po Leung Kuk does gratuitously randi, we believe the ideas of the great | were left entirely to be done by majority of European residents in the the Government it would necessitate colony have hitherto been of a somewhat | the placing on the annual estimates of Noon.-Meeting of Humphreys Estate indefinite kind. As to the remont that the in this colony to which the late Chief | status of the Boolety should be legally Justice Sir John Smale called public recognised by a special ordinance, it is at ention in 1878; and which is still one to which we can res no possible carried on to a lamentable extent. No objection. Mr Stewart Lockhart has measures that the Government could done a good service not only to the devise would be sufficient to stop the Lewng Kuk but to the Colony in placing evil practice altog ther, but that its the case for the Society so clearly and

LIFE IN HONGKONG.

I should say, not less than 10 to 30 feet of cutting made, but the tropical vegeta-A writer in the Cornhill Magazine, giving tion is quickly apringing up, and railway his views on life in Hongkour, says :rolling-stock and other plant are Hongkong society is nothing if not smart, and has a rather extra strong dush of that "high-life-below stairs" element which seems inseparable from the Orown colony In a society so constituted everyof work done was that as an approach by

body is a person of some consequence, the humbler paths of life are filled by Chinese. Portuguese or Indians, and it is only in politions of some authority and tresponsibility that it is found necessary to employ. the European. What is meant by the high life-below stairs element is quite clear, but it really doesn't matter. Referring to the European ladies of Hongkong, our critic remarks severaly that they 'adopt, exaggerate and caricalure the ways and manners of the masters of Hongkoug. They talk rather fast, laugh eather loud, and look about them a good deal. They are about one to twenty of the grosser ecz, and, as a consequence, they are of considerable social consideration, and-every. one is a little zemarkable for some thing-which is not humility. siderable social consideration is good. The writer moralises thus on the lot of the Chinese coolie :-- Nothing can bring home more forcibly to the mind the nucqual distribution of the pains and pleasures of life than the spectacle of coolies struggling up the hill to the Peak at Hongkong with the materials which are to form the pleasant resting-places of their fellows. You may see a grown man carrying forty bricks, followed by a child toiling under four : but

upon the face of each is the seen the same expression of paintul endurance, and so accustomed to their burdens do theyseem that when their loud is laid aside for a moment's rest they look as if they would fall to pieces. When we reflect that each of these coolies has left his own country to better himself-and, in fact, has bettered where he would be earning two or three ways a financial impossibility. Unlimited dollars at home—it seems no longer diffi: expenditure of money, labour and time, cult to realise the origin of the mystery of Chinese life and character, their callousness to suffering, their indifference to death, and their hostility to everything but what has been; for with them suffering is the normal state of existence, death is the only possible alleviation they can look forward to, whilst every change they have known hitherto has been to their disadvantage. To most people death is a thing inevitable perhaps, but to be avoided us long as possible, to be thought of with reverend fear. and to be spoken of with bated brouth. Il is the symbol of purposes unaccomplished, of hopes unfulfilled, of pleasures curtailed, of aspirations pusatisfied. But to a China. man of the class in question death is his one chance of escape from a condition of which has no purpose save the fulfilmen
